

COURSE

Joint Health and Safety Certification Training

Safety starts here.

+

What is being offered?

The Nuclear Innovation Institute, in partnership with BEST Safety Training and Consulting, is offering Joint Health & Safety Committee (JHSC) Training – Part 1 & Part 2. This training equips participants with the knowledge and certification required to create a safe, legally compliant work environment.

Participants can register for Part 1, Part 2, or both, depending on their needs. This training helps organizations meet Ontario's Occupational Health & Safety Act requirements while fostering a proactive safety culture.

Who should enrol in this course?

This training is designed for municipalities and businesses with **20 or more employees**, especially those that need to establish or strengthen their Joint Health & Safety Committee or have new JHSC members requiring certification.

What will you learn?

- ▶ **Part 1:** Covers workplace safety fundamentals, hazard identification and legislative requirements.
- ▶ **Part 2:** Builds on this foundation with industry-specific hazard control and practical applications.

Upon successful completion of the course, participants will receive a digital certificate, meeting the requirements of the Ontario Occupational Health & Safety Act and supporting a proactive safety culture in the workplace.

When is it delivered?

Part 1: April 28-30th, 2025 | 8:30 AM - 4:30 PM

Part 2: May 1-2nd, 2025 | 8:30 AM - 4:30 PM

Where does the course take place?

NII Advance Technology Campus
117 Farrell Drive, Tiverton, ON

How do I register?

Part 1: \$569.25 +HST

Part 2: \$379.50 +HST

Additional fee of \$20/day for catered lunch.
